

New Assignment For Professor Zotos

Northeastern University Professor John Zotos of Cohasset has been placed on 'special assignment' to the Dean of the College of Engineering for industrial liaison purposes during the 1978-79 academic year. He will continue to teach and conduct research and consulting duties at a reduced level in order to pursue his new tasks.

Prof. Zotos began to serve in this new capacity in the Spring Quarter of 1978 and has simultaneously completed other professional commitments. In March, he addressed the Manufacturing Jewelers and Silversmiths of America Convention in New York City on "Hypo-Allergenic Finishes for Jewelry."

In June, he was invited to speak at the Ductile Iron Society's 20th Anniversary Conference in Corning, New York, on the "Computer Aided Design of Ductile Cast Iron Alloys Possessing Guaranteed Properties." In July, he addressed the NU 1979 Summer Institute on "What is Engineering?" and his subject was "New Frontiers in Engineering and Technology." In August, he co-authored a chapter for the second edition of the A.R.S. Refractories Manual entitled "Thermochemistry of Refractory Reactions."

In September, he is speaking to the in-coming freshmen on "New Technology Processes and Techniques Discovered

Professor Zotos & Scientific 'Jungle Gym'

and Developed at N.U. during the Past Two Decades." In October, he is scheduled to address the Fall Conference of the A.S.E.E., New England Section, at the University of New Haven and Yale University (Co-Hosts) on the subject of "Marketing Engineering Education in the 1980's."

Several honors bestowed upon Prof. Zotos this year are his designation as a "Witness

for the Lord" by the Greek Orthodox Archdiocese of North and South America at their Church Conference in Detroit, Michigan, and his nomination by the N.U. Alumni Association for the Outstanding Alumni Award in Science and Technology.

Prof. Zotos was also interviewed by WEEI's Howard Nelson for an entire week on that station's "Education To-

day" program and the subject focused upon "Educational Opportunities in Engineering and Technology." More of these radio talk encounters are planned for the months ahead.

Prof. Zotos is formerly from Brockton, Mass., and currently lives in Cohasset with his wife, Libby, and their three children: Michael, Yoanna,

and Frederic. Yoanna was also honored during 1978 when she was selected as the 'Outstanding Sophomore' at Cohasset High School and participated in a state wide conference in February. Michael graduated from Cohasset High in June and began his freshman year at N.U. this fall in the College of Engineering.

CRASH COURSE IN FINANCE . . .

. . . FOR FAMILIES WITH AS LITTLE
AS \$100 TO INVEST

This is an Ad for the Pilgrim Co-operative Bank, in Cohasset Village. This message is for you, the average person. We have the best savings plan in Massachusetts for people who have as little as \$100 to invest. (You won't risk a penny.) It's got a fancy name: Paid Up Shares, but you won't have to find a stock broker to buy them. You see us . . . and then you'll own a piece of our bank. We're a co-operative bank and that allows us to offer these shares. Walk into our bank. Ask the teller to give you paid-up shares (one for each \$100). What you'll get is a bank book. Each \$100 in the book means you own one share in our bank. Every month we send you a check as a dividend . . . computed at 5½ % per year. Keep the money here and we keep sending you checks. The best part of this whole deal is you get your money back from us just by asking for it. You get it right then. Then there is no notice.

NO RISK. GET YOUR MONEY BACK THE MINUTE YOU ASK!

No bank in Massachusetts pays higher interest on no-notice than Pilgrim Co-operative Bank.
